

PROBIOTICS

PRODUCT CATALOGUE 2022-24

Welcome

Synbiopro Nutraceutix Inc. is a Health and Wellness Company incorporated in Prince Edward Island, Canada in 2014 and also incorporated in India in 2021 as a Private entity created with a specialized focus on health and wellness and a primary focus on Probiotics, Prebiotics and Vitamins for various countries. Our products are designed and formulated to help manage and support a variety of diseases using probiotics, vitamins, trace minerals and in combination thereof. It aims to target various groups beginning from infants, children and teens aged 5-14, adolescents, adults and seniors from 16-85.

Synbiopro Nutraceutix has a deep knowledge in the field of Probiotics and its therapeutic applications, it offers multiple product choices in the form of probiotic capsules, sachets and gummies targeting lifestyle diseases. In terms of services we also offer R&D and product development for new formulations that are scientifically and clinically validated. Our products are unique in that they address and assure the minimum intake of daily vitamins, probiotics and other important elements that are required by the human system to maintain a healthy quality of life. All our products shown below have been thoroughly screened and granted regulatory and pre-market approval by Health Canada.

Our products use the best medicinal ingredients as well as non-medicinal ingredients that are scientifically validated backed up by clinical trials. Our formulations are approved by Health Canada are (i) soy and nut free, (ii) use Non-GMO, USFDA GRAS ingredients, are (iii) Halal and (iv) Kosher certified by international certification bodies. Our products are competitively priced and affordable by all.

About Us

SynBioPro Nutraceutix aims to be a major player in the field of Health & wellness and provide innovative and creative solutions across health, pharma and biotech industries.

SynBioPro Nutraceutix leads the way in product safety through regulatory leadership and insight. Using science responsibly and providing transparency to our customers is the way we operate.

Health, happiness and wellbeing. These three things are at the core of everything we practice at SynBioPro Nutraceutix. We encourage people to make their health and life a priority, Don't suffer till someone notices you. Reach out and ask. We believe that the right approach to health should always be a positive thought, regular exercise and wholesome food. Most importantly, we believe in celebrating Life to the fullest extent. We are committed to research and product development in dietary supplements whether it be vitamins and probiotics.

Probiotics

Feel Good from the Inside out

What are they?

The micro-organisms residing in your intestine tract are called Intestinal “micro-flora” or micro-biota are comprised of more than 100 trillion bacteria belonging to more than 1000 genera of bacteria.

“**Probiotics are the live, friendly**” bacteria which are supplemented to fortify the existing population of beneficial bacteria in the intestine. Although the word bacteria may imply a negative connotation, these beneficial bacteria promote a healthy balance in the micro-flora allowing them to carry out digestive and immune functions.

No two formulations produce the same result. Benefits vary according to the type of strains used and in the manner they are formulated or preserved.

DID YOU KNOW?

- a) There are 1000+ live bacterial species resident in your gut
- b) 80% of your Immune system is found in your gut
- c) Your gut is the second brain, so lets keep it healthy

PROBIOTIC SUPPLEMENTS MUST CONTAIN

Live Cultures

Dietary supplements containing “**Probiotics**” shall be formulated using live, whole cultures either singly or in a combination that have been clinically validated and documented. For physicians and specialists, should ask for research publications or clinical studies. Be sure to look for a strain designation number next to the culture used, for example *Lactobacillus acidophilus*, **La-14** or **NCFM**. It is mandatory to include this on all labels, documentation and product catalogues.

Adequate Amounts

Dietary supplements containing “**Probiotics**” shall have adequate amounts in a formulation to produce the desired results to create a healthy intestinal balance. Aerated drinks and junk food will destroy the gut flora. Ensure that a supplement with Probiotics is part of a prescription with any antibiotics or other powerful medication.

Right Cultures

Determining the right culture or cultures in the right combination to deliver the right impact and the correct therapeutic approach is very important.

The logo features a stylized graphic of three overlapping loops in shades of purple and pink on the left. To the right, the text "SynBioPro" is written in a bold, sans-serif font, with "Syn" in purple and "BioPro" in black. Below it, "Nutraceutix" is written in a larger, bold, sans-serif font, with "Nutra" in black and "ceutix" in purple. A small "TM" symbol is located to the right of the word "ceutix".
