Probiotics

Feel Good from the Inside out

What are they?

The micro-organisms residing in your intestine tract are called Intestinal “micro-flora” or micro-biota are comprised of more than 100 trillion bacteria belonging to more than 1000 genera of bacteria.

“**Probiotics are the live, friendly**” bacteria which are supplemented to fortify the existing population of beneficial bacteria in the intestine. Although the word bacteria may imply a negative connotation, these beneficial bacteria promote a healthy balance in the micro-flora allowing them to carry out digestive and immune functions.

No two formulations produce the same result. Benefits vary according to the type of strains used and in the manner they are formulated or preserved.

DID YOU KNOW?

- a) There are 1000+ live bacterial species resident in your gut
- b) 80% of your Immune system is found in your gut
- c) Your gut is the second brain, so lets keep it healthy

PROBIOTIC SUPPLEMENTS MUST CONTAIN

Live Cultures

Dietary supplements containing “**Probiotics**” shall be formulated using live, whole cultures either singly or in a combination that have been clinically validated and documented. For physicians and specialists, should ask for research publications or clinical studies. Be sure to look for a strain designation number next to the culture used, for example Lactobacillus acidophilus, **La-14 or NCFM**. It is mandatory to include this on all labels, documentation and product catalogues.

Adequate Amounts

Dietary supplements containing “**Probiotics**” shall have adequate amounts in a formulation to produce the desired results to create a healthy intestinal balance. Aerated drinks and junk food will destroy the gut flora. Ensure that a supplement with Probiotics is part of a prescription with any antibiotics or other powerful medication.

Right Cultures

Determining the right culture or cultures in the right combination to deliver the right impact and the correct therapeutic approach is very important.

The logo features a stylized graphic of three overlapping loops in shades of purple and pink on the left. To the right, the text "SynbioPro" is written in a bold, sans-serif font, with "Synbio" in black and "Pro" in purple. Below it, "Nutraceutix" is written in a similar font, with "Nutra" in black and "ceutix" in purple. A small "TM" symbol is located to the right of the word "Nutraceutix".
